# FIFTEENTH REPORT

OF THE

## GENERAL PRISONS BOARD, IRELAND.

TO HIS EXCELLENCY ROBERT OFFLEY ASHBURTON  
MILNES, BARON HOUGHTON,

LORD LIEUTENANT GENERAL AND GENERAL GOVERNOR OF IRELAND.

General Prisons Board,  
Dublin Castle,  
August, 1893.

MAY IT PLEASE YOUR EXCELLENCY,

1. We have the honour, pursuant to statute, to present this <sup>40 & 41 Vic.</sup> our Fifteenth Annual Report on the condition of the prisons <sup>cap. 49, sec. 15.</sup> and prisoners within our jurisdiction, and in respect to the registration of habitual criminals, during the year ended 31st March, 1893.

### I.—LOCAL PRISONS.

2. With a view of continuing the carrying out the recommendations of the Royal Commission as to the reduction of Bridewells, during the past year the Board have repeated their recommendation for the closing of New Ross Bridewell, but, although in their opinion the time has arrived to close this Bridewell, owing to the increased facilities of railway communication with the prison at Wexford, their recommendation has not been adopted. <sup>Proposed closing of a Bridewell.</sup>

3. Table XXI. in the Appendix shows in detail the chief works <sup>Buildings.</sup> of reconstruction and repairs which have been accomplished during the year.

4. In our last two Reports we made reference to the enlargement <sup>Belfast Prison.</sup> of Belfast Prison, but nothing has been done in this direction during

the past year, as, owing to legal difficulties, the Board have not yet succeeded in obtaining possession of the ground, the purchase of which was sanctioned by the Treasury two years ago. It is, however, satisfactory to remark that no inconvenience has since been experienced from want of accommodation in this prison, and that the decline in the number of prisoners remarked on in our last Report, is still progressive, so that the present cellular accommodation answers the requirements of the district.

**Commitments.** 5. We are happy to be able to report that the commitments, both of convicts and local prisoners, have continued to decrease there having been twenty-one fewer commitments of the former and about 3,000 of the latter during the year 1892-3, than in the previous year—the number of local prisoners committed having also been fewer than they have been in any year since the Board assumed the control of these prisons.

**Expenditure.** 6. Following the reduction of numbers this year as compared with last, it will be observed by reference to Table XLI. that there is an aggregate reduction in the total expense of convict and local prisons, although we have still carried out, at considerable cost, large sanitary and other improvements in many of our prisons.

**Prison dress** 7. The question which at one time created so much agitation in Ireland, namely, that of requiring all prisoners to wear prison dress, has now almost disappeared. Only six prisoners have, during the past year, availed themselves of the relaxation of the old rules in this respect.

**Punishments.** 8. There is not much to remark this year upon the subject of punishments for breaches of prison rules, as the percentage of prisoners punished has not varied much for the past few years, nor is it under the circumstances likely to vary much, as the prisons are largely occupied by a class of habitual criminals and tramps, whose conduct in prison is generally about the same, and from whom, owing to their mode of life and utter recklessness of habits, little improvement can be expected. At the same time, looking back to years gone by, it is highly satisfactory to observe a very considerable reduction in the numbers of punishments in prisons.

**Education.** 9. In Tables VI. and VII. will be found the particulars in regard to the education of prisoners committed to the larger local prisons. The "wholly illiterates" committed to the larger local prisons have been 10,915, or 32·7 per cent. of the total commitments to those prisons. When considering the tables on this subject, it is to be borne in mind that over *ninety per cent.* of the local prisoners are committed for periods under three months, and are therefore, with the exception of juveniles, not entitled to secular instruction. With regard to the longer sentenced prisoners, we have reason for believing that numbers of them

received during their imprisonment a certain amount of elementary education, and, if they were inclined to make use of it, would be of the greatest advantage to them in the outer world.

10. The Board are happy to be able to state that several of the chaplains are now more alive than they have hitherto been to the necessity of compliance with the rules in regard to the supervision of the secular instruction of the prisoners, and, where this is done by these gentlemen, the result cannot fail to be satisfactory.

11. In former reports of the Inspectors-General of Prisons they frequently drew attention to the evil and inutility of repeatedly sending old offenders to prison for very short sentences—from 24 hours upwards. The Prisons Board have continued to draw attention to this evil, but regret to observe that such sentences this year, as will be seen from the attached table, are quite as numerous in proportion to the total numbers committed as in the previous year. Little attention has been paid to our remarks on this subject by the justices throughout the country, so that we can do no more than refer them to the remonstrances which we considered it our duty to make in former reports, and again express our regret that so much costly expenditure is incurred in a practice which has no ameliorating effect upon hardened criminals. To send prisoners to gaol for 24 hours, or perhaps 3 days, who have been 200 or 300 times in prison before, amounts simply to a delusion. All these prisoners must be washed and cleansed, and probably sent to hospital, from the effects of drink, to be there cared for and attended to, and rendered physically fit for re-indulgence in crime after a short rest in gaol.

12. In the Appendix, Tables XIV. to XVI., will be found the details, in connection with the commitment of juveniles. The total number of this class of prisoners committed last year has decreased by 20, though the number of females of the same class has increased by 15.

## First offenders.

13. In our last Annual Report we drew attention to the evils of committing very youthful juveniles to prison, and also to other cases which we considered would have been more properly dealt with under the "Probation of First Offenders" Act. It appears that in Belfast a youth was last spring sentenced by the judge of assize to receive 10 strokes of a birch rod, under Act 48 and 49 Vic. c. 69. The Governor states that this had a most salutary effect, not only upon the offender himself, who has never since come within the magisterial jurisdiction, but also upon his companions, street arabs, amongst whom this prompt punishment has established a very wholesome fear of the birch. Had this boy been sentenced to imprisonment he would probably have been considered a hero amongst his fellows and become a frequent offender, having little fear of prison life.

14. During the recent visit of the Chairman to this prison, he also found 9 boys, varying in age from 12½ to 18 years, who were in custody awaiting trial on a charge of insubordination and damage to property at a Reformatory. These appear to be cases in which, in the event of their conviction, a similar mode of punishment might be adopted with greater benefit than a lengthened imprisonment.

15. In connection with this subject we append a table showing some of the most flagrant cases to which our attention has been drawn during the year.

Prison.	Initials of Name.	Sex.	Age. Years.	Crime.	Sentence.	Remarks.
Armagh.	A. P.	F.	80	Aiding concealment of birth.	On remand.	Committed on 5th January, 1883, and died in her cell on 18th January. Verdict of coroner's jury as to cause of death—"Syncope arising from old age."
Kilmainham.	M. B.	M.	80	Begging.	1 cal. m. H. L.	A very infirm old man, usually inhabiting the workhouse.
Do.	T. N.	M.	16½	Illegal possession of 13 apples.	7 days' H. L.	This trivial offence might have been dealt with by a good whipping.
Londonderry.	E. G.	M.	80½	Obstructing right of way.	7 days or 3s.	This man, owing to his extreme age, and on release from Prison, to be conveyed in a car to the railway station and accompanied home by a Prison Officer.
Do.	C. D.	M.	82	Assault.	7 days or 12s.	A family dispute about the grass of a cow.
Mountjoy.	C. R.	M.	11	Throwing stones on public thoroughfare.	4 days or 4s.	This was the boy's first offence.
Do.	T. W.	M.	11	Assault.	1 cal. m. or 12s.	This was the boy's first offence.

16. It will be observed that an old woman of 80, who had never before been in prison, and who had not been tried, was committed to Armagh prison on remand, although from her advanced years it would have been difficult for her to have left the country. This old woman actually died in prison after only having been there for 13 days.

17. We submit herewith abstracts showing the number in custody in local prisons, and number of commitments thereto, during certain years since 1854. Numbers in local prisons.

18. In previous reports we have referred to the number of prisoners in custody under the Criminal Law and Procedure Act at the end of the year. This Act, however, having since been suspended, no such prisoners were in custody on the 31st of March 50 and 51 Vic. c. 20.

this year, although 33 were committed to prison during the year; the majority of these, viz., 21, having been committed to Armagh Prison about the same time for periods of from 14 days to 3 months' imprisonment for riot and unlawful assembly.

Numbers in  
Bridewells.

19. We annex herewith the usual tables dealing with prisoners confined in Bridewells, by which it will be seen that the decrease in numbers remarked on in previous reports still continues.

Industrial  
Labour.

20. In Table XXII. of the Appendix will be found the particulars relating to the industrial labour and the industries carried on in local prisons. We are happy to be able to report an increase in the profits arising out of such labour, the net profits for the year 1891-2 having been £2,879 11s. 3d., with "extra receipts" amounting to £166 10s. 9d., whereas last year the profit and "extra receipts" were respectively £2,356 17s. 4d., and £465 1s. 0d., showing an increase of nearly £500 in the former and nearly £300 in the latter.

Cork Bakery.

21. The newly established bakery at Cork, which provides excellent bread for both prisons, continues to work satisfactorily, and although the saving is not large, yet the purity and excellence of the bread are undoubted.

Female Officers

22. In last year's report we drew attention to the inequality of pay between the Assistant Matrons in Ireland and those in England. We subsequently communicated our views on this subject to the Government, with the result that a supply of furniture and an improved allowance of uniform have been sanctioned for the female officers, which we trust will have the very desirable effect of securing for the service a better class of matrons than we have hitherto succeeded in enlisting of late years.

23. We have much pleasure in again recording our testimony to the very useful assistance given to the Board by several of the Visiting Committees throughout the country, who have continued to afford the Board most valuable assistance in dealing with the several matters relating to the prisons with which they are connected. The Table given below shows the number of meetings of the several Visiting Committees, and the number of visits paid by individual members thereof.

24. We have nothing to add to the remarks contained in our last and previous Annual Reports respecting Prisoners' Aid Societies. There have been no additions to those already established, and although great advantages have been derived from the few existing Societies, yet we have again to express our regret that no new ones have been certified for during the past year.

Prisoners' Aid Societies.

25. The average daily number of prisoners in the Local Prisons during the year was 2,321; the number of deaths, excluding 3 executions, was 11; giving a death-rate of 4.74 per thousand on the daily average number in custody. The death-rate per thousand for the estimated population of the whole of Ireland during the same period was 17.7.

Deaths.

26. Appended is a table of mortality among prisoners for each year during the last twelve years :—

YEAR.	Daily Average Number of Prisoners.	No. of Deaths.	Rate per Thousand.	YEAR.	Daily Average Number of Prisoners.	No. of Deaths.	Rate per Thousand.
1872-3.	2,331	11	4.74	1886-7.	2,645	9	3.40
1873-4.	2,506	9	3.6	1887-8.	2,661	10	3.74

1877-8.	2,268	13	5.87	1891-2.	3,111	18	5.78

27. The causes of the eleven deaths will be found in the Appendix, Table No. XI. It will be observed that 3 of the deaths were suicidal (by strangulation), 4 from syncope (of which 2 occurred on the day after committal and 1 two days after committal), 1 from senile decay, 2 from apoplexy, 1 from influenza, and 1 from pulmonary congestion. Of the above, only 3 resulted from diseases originating after reception into prison.

#### Health of Prisoners.

28. There were 4 cases of typhoid fever in the local prisons; in 3 of these the fever was incubating when the prisoners were admitted; in the fourth case, which occurred at Mountjoy, no cause was traceable, save that this disease has been prevalent in Dublin generally. There has been no typhus fever.

29. The number of prisoners released on medical grounds has been 72, an increase of 18 as compared with last year. Of the 72, there were 33 women released on the ground of being very near their confinement, and 27 were cases of disease reported as having originated before reception into prison.

#### Insane Prisoners.

30. There has been an increase in the number of cases of insanity transferred from local prisons to asylums. Last year there were 71, but this year the number has risen to 92. Of these, on their reception, 72 were found to be insane, 5 to be imbecile, weak-minded, etc., and 3 doubtful, while of the 12 who were said to be sane, 4 had been previously in asylums.

31. Attention has been frequently called in the reports of previous years to the fact that many lunatics are committed to prison instead of being sent to an asylum. It is to be regretted that the numbers so committed are largely increasing. During the past twelve months 13 prisoners were transferred from Limerick Male Prison to the asylum; and of these, 9 were insane when

committed; in Limerick Female Prison, there were 6 prisoners who were removed to the asylum, every one of whom was insane when sent to gaol. The medical officer of the first-named prison writes—"latterly the prison is made a stepping-stone to the lunatic asylum."

Insane  
prisoners.

### 32. A few instances are subjoined:—

*Waterford*.—B. B., sentenced to fourteen days or 11s. 6d. fine for riotous behaviour, was found on her admission to be "suffering from dementia. She has always been of weak intellect, and her brother has also been insane. She was insane when last committed. She has many delusions, and talks wildly and incoherently. . . . We recommended her speedy removal, as her case is unsuited for the conditions of prison life."

*Limerick (Female)*.—B.M., sentenced to one month with suitable labour for violent assault. The Medical Officer in his Report, states that she was suffering from dementia, was noisy and excitable at times, had a complete loss of memory, and that the magistrate who committed her made the following note:—"It is requested that this woman may be medically examined as soon as possible in Limerick Prison as to her state of mind."

*Mountjoy*.—D. H., sentenced to two months for assaulting a female. In the certificate he is reported as being "mentally deficient (imbecile)" and should not have been sent to prison."

*Grangegorman*.—M. M'G., sentenced to three days with hard labour for wandering abroad and begging, is stated in the Medical Report accompanying certificate, to be "in same state of mind on committal as at present (i.e., two days afterwards). She is quite imbecile and talks incoherently."

*Mountjoy*.—W. M., sentenced to fourteen days or a fine for an act of indecency, is reported in certificate "to be suffering from dementia, in a miserable state, and more a case for the lunatic wards of a workhouse than a prison. Insane on committal."

*Wexford*.—J. P. was sentenced to one month's imprisonment for being found in an outhouse having no visible means of subsistence. The Medical Practitioners, who believed her to have been insane on admission, state that "she wanders about the country without any fixed abode, and is unable to give any lucid account of herself or relatives, "When asked a question as to any locality, she says, 'Oh, it's over the water.' Her mind is very weak."

33. In some of the above instances no doubt proceedings might have been taken under the Dangerous Lunatics Act (30 and 31 Vic, cap. 118), and the lunatics sent direct to the asylum, but in the majority of the seventy-two cases where persons actually insane were committed to prisons the course adopted appears to have been unavoidable. The limitation of the power of magis-

trates to commit to Asylum only alleged lunatics apprehended under circumstances denoting a purpose of committing an indictable offence is unfortunate for these sufferers, and an amendment in the law in respect of obvious lunatics would be to their advantage by gaining for them immediate asylum treatment—a desideratum in many of the acute cases, while it would relieve prison officials of the care of those who are unsuited to prison discipline.

Cost of removal  
of prisoners.

34. The attention of the Board has been drawn to the remarks of one of the County Court Judges as reported in a local newspaper, an extract from which is subjoined, namely:—

“His honour said he understood that by the regulations of the Prisons Board female prisoners were not admitted to Dundalk gaol, or indeed to any prison in the county, they not being taken into Drogheda prison unless the term was for less than seven days. A female prisoner therefore would be sent to Grangegorman, and not only would the county be put to the expense of sending her there, but, failing to pay her debt, she would eventually be released from Grangegorman prison, and left at the prison gates to make her way home here as best she might. He (the judge) was not going to make an order which would entail such consequences as this, and he mentioned the matter publicly in order that it might be understood.”

35. Inasmuch as judging from these remarks, there seems to be a misunderstanding in some quarters, even among the Chairmen of Quarter Sessions, as to the source from which the cost of conveyance of prisoners is defrayed, we think it right to point out that—(a) 47 & 48 Vic., cap. 36, sec. 2, provides that the expenses incurred *inter alia*, for “custody, safe conduct, and removal” from the period when the order for committal to prison is made, shall be defrayed out of the moneys provided by Parliament. The county would therefore be put to no expense whatever; (b) 40 & 41 Vic., c. 49, sec. 37, provides that a prisoner confined in a prison situate beyond the limits of the place in which he was convicted shall at the time of his discharge be entitled to be taken back at the public expense to the place in which he was convicted. It will therefore be seen that in the instance here given a wrong impression on this point must have existed.

## II.—CONVICT PRISONS.

Accommoda-  
tion.

36. No alterations have been this year made in the accommodation of the Convict Prisons of Mountjoy, Maryboro', and Grangegorman, where the cellular accommodation has been found ample for the detention of prisoners of this class in custody, nor has there been any alteration in the arrangement of the classes referred to in our last report.

37. We are happy to be able to report that the numbers of convicts, both male and female, have slightly decreased during the year 1892-3, as will be seen by the annexed Table; notwithstanding the recent changes in the law, in regard to sentences to Convict Prisons for periods of three and four years. Number of Convicts.

38. In Table XXXVI. of the Appendix, will be found the details of the works of reconstruction in these prisons. Buildings.

39. In Mountjoy Prison the additional cellular accommodation referred to in our report has been completed by the convicts, and the new cells have now for some time been inhabited, and are a great addition to the local prison, inasmuch as they provide the necessary accommodation for prisoners that were removed some years ago from Richmond Bridewell, and economy is thereby effected by reason of its not being necessary any longer to transfer male prisoners to other local prisons from Dublin.

40. The old houses at Cowley Place have this year been levelled, and a commencement made of the new block of twenty-nine Warders' Cottages, which will provide outdoor labour for convicts for some time to come.

41. At Grangegorman Prison we have altogether reconstructed the Reception Department of the building, including examination and Medical Officers' rooms. We have also added sixteen baths to this Department, over which we have constructed an excellent mess room for the female officers, thereby supplying a want that has been very much felt in this our principal female prison, and from which we hope will result a great improvement in the regularity and comfort of these officers.

42. Maryboro' Prison is still occupied principally by male invalids; here also the Intermediate Class Convicts are kept. The latter have been chiefly employed in outdoor labour, and have now completed the two new Warders' Cottages, making a total of 10 such buildings now at Maryboro'.

43. In Table XXXVII. in the Appendix will be found details of the employment and earnings of convicts during the year. Employment and earnings.

44. We still find a very satisfactory result from our bakery at Mountjoy Prison, as no doubt we can supply pure bread at considerably less cost than if it were purchased in the market. The estimate of the saving this year is calculated to be about 30 per cent. Bakery.

Number of  
Convicts.

45. The number of convicts in custody on 31st March, 1893,  
was :—

\* In addition to this number there were 240 convicts under detention in the county prisons, and several hundreds in Bermuda and Gibraltar, who were subsequently discharged in Ireland.

## Deaths.

50. There was one case of typhoid fever in Mountjoy Convict Prison, and it resulted fatally. This was the only death which occurred at Mountjoy; but three occurred among the Invalid Convicts at Maryborough.

## Health of Convicts.

51. Four convicts were released on medical grounds, and five were transferred as insane to the Criminal Lunatic Asylum.

## First Convictions.

52. Care is taken in both Convict and Local Prisons to keep the first convictions apart altogether from the old offenders. In the Convict Prisons before a convict leaves the Probation Class the Board is consulted as to whether the convict shall or shall not be classed as an old offender, and after minute inquiries as to the prisoner's antecedents and previous life, this matter is decided by the Board.

## Refuge Class.

53. The Refuge Class for convicts established in Grangegorman Prison works well, but is very small, numbering only two at the end of the year.

## Convict Rules.

54. During the past year we have had under consideration the revision of the whole Convict Prison Rules, together with the Convict Dietaries, which we have lately had the honour to lay before your Excellency for approval. These rules have been assimilated as far as the circumstances of this country permit to those already in force in the Convict Prisons in England.

## Remission of Sentences.

55. In our last year's report we referred to the introduction of the new system of remission of convicts' sentences and attached tables in reference to this matter which we again reprint herewith.

## III.—REGISTRATION OF CRIMINALS.

56. Full details of the Registration of Criminals will be found in Table XL. of the Appendix.

57. The usual Alphabetical Registry has been continued up to present date.

58. There has been a slight decrease, namely, four, in the number of Habitual Criminals registered in the year 1892-3 as compared with the year before.

## IV.—DEPARTMENTAL.

59. The only important alteration in the principal members of our Staff last year was the resignation of Mr. Sproule as Superintendent of Stores, and the appointment to that office of Mr. Metcalfe, who previously was in the Finance Department, but who had also a considerable experience of the management of the new Store System.

## V.—APPENDIX.

60. We beg to refer to the Appendix for the several Tabular Returns, Official Reports and Circulars, &c., usually submitted with our Annual Reports.

We have the honour to be,

Your Excellency's obedient servants,

CHARLES F. BOURKE, *Chairman.*

JOHN MULHALL, *Vice-Chairman.*

APPENDIX  
TO  
FIFTEENTH REPORT OF THE GENERAL  
PRISONS BOARD.

PART I.

CIRCULARS AND CIRCULAR MEMORANDA.

General Prisons Board, Dublin Castle,  
26th July, 1892.

**CIRCULAR No. 398.**

To the Governors (or other Officers in charge) of the several  
Local Prisons.

**PRISONERS AWAITING TRIAL.**

In order that prisoners awaiting trial, who are not represented by a Solicitor, may have every facility for procuring the attendance at the Court of trial of witnesses, who may be able to give testimony on their behalf, but who have not been bound over by the committing Magistrate to appear, I am directed to instruct you to ask all undefended prisoners at a reasonable interval before the trial, whether they wish to summon any witnesses for their defence, and to forward at once any letters which the accused may wish to send, with this object in view.

A notice, of which a copy is enclosed, is also to be placed in the cell of every prisoner awaiting trial, and is to be communicated verbally to prisoners who cannot read. You should be prepared in every case to inform the Court of Trial that this information has been given, and to say what, if any, witnesses the accused desired should be present at the trial.

Please make a requisition at once for as many copies of this notice referred to, as will be required for the prison under your charge. (8,856).

By Order,  
S. H. DOUGLAS, Secretary.

**NOTICE TO PRISONERS AWAITING TRIAL.**

If a prisoner awaiting trial, who is not employing a Solicitor, wishes any witnesses to appear in his defence, he will be afforded every facility, or, if need be, assistance in writing to his friends to procure their attendance.

If the prisoner desires it, he may communicate with the Police requesting them to ask any such witnesses to attend. The Police will do their best for this purpose, but it must be understood that they are not responsible that the persons whose attendance is desired, shall attend.

General Prisons Board, Dublin Castle,  
5th September, 1892.

**CIRCULAR No. 400.**  
10,849/92.

The Governors (or other Officers in charge) of the several Convict and  
Larger Local Prisons.

In view of the possibility of the extension of Cholera in Ireland the Board desire to indicate certain general measures of precaution in addition to those detailed in the Circular of 15th April, 1885, and to such other means for the exclusion or isolation of the disease, as the Medical Officer may recommend:—

1. Request the Medical Officer to give you as early intimation as he can of the appearance of any case of Cholera in the town in which the Prison is situated, and report to the Board.

2. On being informed by the Medical Officer of the appearance of Cholera in the town, you will at once arrange (unless the Medical Officer expresses objection by an entry in his Journal)—

- (a.) to boil all milk in Prison before using it ;
- (b.) to boil all water used for drinking—water thus boiled should not be kept over for use more than twenty-four hours ;
- (c.) to place upon Class 2 diet from the time of their committal, all prisoners whose terms of imprisonment are one month or under ;
- (d.) to direct special attention of Medical Officer to any case proposed for dietary punishment ;
- (e.) to forward report from Medical Officer whether prisoners who may be in hospital at the time can, without detriment, be removed to their cells, and treated in them ;
- (f.) instructions should be given to subordinate officers in charge of prisoners to report to the Governor, for the information of the Medical Officer, should they know of any case of looseness of the bowels, although the prisoner may make no complaint of pain or inconvenience ; also to report to the Medical Officer, without delay, the occurrence of any suspicious illness amongst their own families.

In case a prisoner should, in the opinion of the Medical Officer, manifest symptoms of Cholera, you will at once remove him to the hospital, and telegraph the occurrence to the Board, stating his name, offence, and sentence, and arrange for his transport and admission to the hospital provided by the Sanitary Authority for the reception of Cholera patients, so as to be ready should an order for his release be telegraphed back.

All evacuations, that is, matter vomited or passed from the bowels, ought at once to be treated with disinfectants. The disinfectants should not only be poured in large quantities over such evacuations, but mixed thoroughly with them before they are poured into a W.C.

The Local Government Board, in a memorandum recently published, recommends the following as a useful disinfectant :

"A good disinfecting solution may be made with  $\frac{1}{2}$  oz. corrosive sublimate, 1 fluid ounce hydrochloric acid, and 5 grains of commercial aniline blue, in 3 gallons (a bucketful) of common water. It ought not to cost more than 3d. the bucketful, and should not be further diluted. The use of non-metallic vessels (wooden or earthenware house tubs or buckets) should be enjoined on those who receive it, and articles that have been soaked in it should be set to soak in common water for some hours before they go to the wash. Floors that have been wet with Cholera evacuations should be washed with the above solution, and afterwards cleansed in the ordinary way. All Cholera evacuations should have some of the above solution added to them before being otherwise disposed of."

N.B.—This solution is poisonous.

It is not, however, intended to limit the discretion of the Medical Officer as to the particular disinfectant he may prefer.

The clothing of Cholera patients ought to be steeped in a disinfecting mixture before being sent to wash, and it ought not to be washed with other clothing. All the bedding used by the patients should be burned. The cell or ward from which a Cholera patient has been removed ought to be thoroughly disinfected, in accordance with precise directions given by the Medical Officer, by washing the timber and boards with disinfecting mixture, and afterwards by limewashing.

By order,

S. H. DOUGLAS, Secretary.

CIRCULAR No. 401.

10,848/92.

General Prisons Board, Dublin Castle,  
6th September, 1892.

To the Chief Warder of each Minor Prison and the Keeper of each Bridewell.

In view of the possible extension of Cholera to this country, the Board desire to direct attention to the following points:—

1. When the water supply is drawn from wells within the prison boundaries, care should be taken to remove all sources of possible contamination from leakage of drains, surface soakage, or the vicinity of foul ditch.

2. Accumulations of filth, vegetable matter, or house refuse, should be prevented.

3. If it should come to your knowledge that any nuisance exists beyond the walls but in dangerous proximity to the prison, you ought to draw the attention of the sub-Sanitary Officer of the district to the existence of such nuisance with a view to its abatement by the Sanitary Authority.

Should you learn from a reliable source of information that any case of Cholera has actually occurred in the town in which the minor prison or Bridewell is situated, you will at once—

(a.) communicate the fact to the Board;

(b.) boil all water to be used for drinking purposes; but water thus boiled should not be kept over for use longer than twenty four hours;

(c.) boil all milk.

(By Order),

S. H. DOUGLAS, Secretary.

## MARYBOROUGH CONVICT PRISON

(For Invalid Convicts and Intermediate Class Convicts).

### GOVERNOR'S REPORT.

Governor's  
Report.

H. M. Prison, Maryborough,  
21st April, 1893.

SIR,—The late Governor, Mr. Arthur C. Bulkeley, having died on 15th August, 1892, I was appointed his successor as Governor of this prison, and transferred from Her Majesty's Prison, Clonmel, on 1st of October, 1892.

I have the honour to submit my report on the condition of this prison, together with the usual statistics for year ended 31st March, 1893.

The conduct of the subordinate officers has been satisfactory, and they have performed their duties efficiently. Only in one instance was there any offence or neglect of duty on the part of any of them of such magnitude as to render it necessary that it should be specially reported to the Board.

There were sixty-three convicts in custody on 1st April, 1892; there were received during the year from Mountjoy Prison forty-two, and one from Dundrum Asylum returned cured.

There were twenty-eight prisoners released on licence, four removed back from this Prison to Mountjoy, and three died during the year, the particulars of whose cases are given in the Statistics Form "12," leaving seventy-one in custody on 31st March, 1893.

Eighteen prisoners were received into the Intermediate Class during the year, from which class seventeen were released on licence, two were removed back to Mountjoy Prison, and one to Invalid Class, leaving five in custody in this class on 1st of April, 1893. They have been employed building two warders' cottages and cultivating the land outside the prison walls, producing an abundant supply of vegetables for prison use, and a sufficient supply of potatoes for two months use.

The conduct of these prisoners was very satisfactory, except two defaults.

The invalid prisoners, when not confined to bed or exempted from all work, were employed at shoemaking, tailoring, cooking, repairing clothing and bedding, cleaning prison, and cultivating the garden inside the prison walls. Their conduct was, with few exceptions, very good. Since I have been in charge of the prison—now six months—I have found it necessary to report only four of these prisoners to the Board for misconduct, two of these being very weak-minded; and as all the prisoners of this class are under medical treatment as suffering from physical or mental disability, they are not considered fit for punishment by restriction of diet except to a very limited extent; they can only be punished then by confinement, by forfeiture of marks, or by deprivation of some of the privileges gained by good conduct. It is, therefore difficult to maintain discipline amongst them, but by prudent management a large measure of success is attained.

The ordinary labour convicts were employed at tailoring, shoemaking, mason and carpenter work, stone-breaking, and ordinary labour, their conduct being good.

There have been no escapes, attempt at escapes, or suicides during the year.

The Chaplains have been most zealous and attentive in the performance of the usual Sunday and weekly services. The Medical Officers have been most diligent and careful of the sick and complaining.

The Chief Warder is a zealous and efficient officer, who has rendered me every assistance in maintaining the discipline of the prison and enforcement of the rules.

Morning and evening school have been carried on daily by the School-master; the majority of the prisoners appear to derive useful instruction and benefit therefrom.

I certify that the Rules laid down for the Government of the Prison have been complied with, to the best of my knowledge and belief, except such cases as have been specially reported to Board.

The Visiting Committee visited the prison on 13th April, 11th May, 13th July, 10th August, 14th September, 12th October, 9th November, 14th December, 1892; 18th January, 1893, 8th February, 8th March.

I have the honour to be, Sir,

Your obedient servant,

JOHN CONDON, Governor,

To Chairman,  
General Prisons Board,  
Dublin Castle,

### PROTESTANT EPISCOPALIAN CHAPLAIN'S REPORT.

The Rectory, Maryborough,  
19th April, 1893.

*Protestant  
Episcopa-  
lian  
Chaplain's  
Report.*

SIR,—The services conducted during the last twelve months by the Church of Ireland Chaplain in H. Ms. Prison, Maryborough, were regularly attended, both on Sundays and week days, by all the members of the three denominations of Protestants in confinement there. The attention of the men during these services would, I believe, bear favourable comparison with most congregations in the country. I have always been favourably received by them in their cells, and as far as regards their former criminal life most of them profess to have undergone a decided change, but the difficulty in the way of permanent reformation is very great in the case of many of them. I have at all times received in the discharge of my duties every possible assistance from the Officers of the Prison.

I have the honour to be, Sir, your obedient servant,

EDMD. L. EVES.

The Chairman, General Prisons Board.

In reply to your inquiry as to the progress made by the prisoners in the Prison Schools, six Protestant prisoners attended these schools during the year for which I forwarded my report. Only one of these, a Presbyterian named M.M., is at present confined in Maryborough Prison. As he came on the 9th March, it is too soon to judge of his progress. The other men attended the schools of their own choice, and I have reason to believe they made fair progress for the time they were here.

—  
Roman  
Catholic  
Chaplain's  
Report.

Maryborough,  
11th April, 1893.

SIR,—There is not anything particular to note about our Prison here, during the past year. I have again to report that the two Irish-speaking prisoners have not made any progress in their study of the English Language and have not therefore approached the Sacraments during the past year. I wish the Prison Authorities would get over whatever technicality lies in the way, and remove them to some prison where they could have the attention of an Irish-speaking Chaplain. I wish to express my regret at the death of the late Governor, Mr. Bulkeley. He was civil and obliging to all, and humane towards those who were under his authority.

I have the honour to remain your faithful servant,

A. PHELAN, P.P.

P.S.—I have to add with pleasure that the prisoners take a great interest in their school duties. The majority of them have made good progress during the past year. Some of the more advanced scholars study privately in their cells.

A. PHELAN.

To the Chairman of the Prisons Board.

4738.

"General Prisons Board, Dublin Castle,  
" 27th April, 1893.

"REV SIR,—With reference to the remarks in your annual report dated 11th instant, respecting two of the Irish speaking convicts, I am directed by the Chairman of the General Prisons Board to state that the Board regret that notwithstanding the explanation given you on this subject, you consider it necessary to repeat the remarks made in your former reports.

"The Board will therefore have recourse to the expedient they were obliged to adopt last year, viz. :—the publication of the same explanation of the matter in their Annual report.

"I am, Rev. Sir, your obedient Servant,  
S. H. DOUGLAS, Secretary.

"Rev. A. PHELAN, P.P."

(Copy of explanation in last year's report.)

[These convicts have now been about ten years in prison, and every means has been taken for their instruction in the English tongue, which two of them are reported to understand well. They are not willing, however, to learn to speak it. The third prisoner is reported to understand English fairly well and to speak it a little.

It is impossible to think otherwise than that, if these convicts had chosen, they might now be able to speak English fairly well and to understand it thoroughly.]

NOTE.—One of these convicts has since been discharged. Further experience fully bears out the foregoing remarks.

## MEDICAL OFFICERS' REPORT.

Maryborough Prison,  
April, 1893.

Medical  
Officers'  
Report.

SIR,—We have the honour to submit the annual report and medical statistics having reference to the health of the officers and prisoners, and the sanitary condition of Maryborough Prison during the year ended 31st March, 1893,

Of the prison staff we regret to have to record the death of the late Governor, Mr. Bulkeley.

Of the subordinate officers, six have been found temporarily unfitted for the performance of their duties in consequence of illness, which in no case presented any seriousness, their affections having been generally of ordinary character.

There has been a daily average number of fifty-three convicts under hospital treatment for the diseases as set forth in the nosology form (8.)

There has been also a number of 241 convicts treated as extern patients for ailments of lighter type.

Of the hospital patients three died, one from paralysis, one from syncope, and one from phthisis, the two former had been men worn out by old age and infirmity, and the latter on reception here had been found in the second stage of pulmonary consumption and his case then considered as hopeless.

There has been no instance of acute insanity or has there been any case demanding medical interference as to the effect of further confinement endangering life.

The sanitary arrangements have been apparently satisfactory, and call for no special observation.

The water supply continues to be yielded from new deep well in abundance.

We have the honour to be, Sir, your obedient servants,

MAURICE O'CONNELL,

Surgeon, &c., Assistant Medical Officer and Apothecary.

D. B. JACOB, M.D.,

Visiting Medical Officer.

To the Chairman,  
&c., &c., &c.

## MOUNTJOY CONVICT PRISON.

### GOVERNOR'S REPORT.

Mountjoy Prison,  
May, 1893.

Sir,—I have the honour to report for the year ended 31st March, 1893, on the Convict portion of Mountjoy Prison, and to forward the usual statistical returns.

The conduct and attention to duty of the subordinate officers, have been, in general, very good. The changes on the staff during the year were not many, compared with former years. Four warders were discharged on medical grounds, one died, and three resigned. The Chief and Principal Warders have given me satisfaction in the performance of their duties.

The Convicts have been generally well-behaved and submissive to discipline; many of them have shown a laudable interest in, and desire to execute properly, any skilled work they have been put to, and have quickly acquired a fair amount of skill in the various trades. Punishments for prison offences and breaches of rules have been less than in any previous year, and serious offences were rare. One convict received corporal punishment for assaulting a warder.

There was no escape, or attempt to escape, during the year.

All prison buildings, both within and outside the Prison walls, have been kept in good repair by convict labour.

The new wing of local prison was completed during the year, fitted up on improved principles by convict labour, and occupied.

MOUNTJOY  
CONVICT  
PRISON.

Governor's  
Report.

Mountjoy  
Convict  
Prison.

—  
Governor's  
Report.

Foundations, main sewers, &c., have been laid for twenty-three cottages on the Cowley Place premises, outside the Prison, where it is intended to build twenty-nine cottages for warders.

The employments of the convicts have been generally the same as detailed in former reports. Ample, necessary, and remunerative work was available for all.

The bakery was worked in a satisfactory manner during the year; the bread was always good and sweet, and it was produced at about thirty per cent. less than it could be obtained by contract.

The chaplains, have, as usual, been most attentive to the religious instruction of the convicts.

The school teachers have been zealous in their efforts to promote secular education among the convicts, especially those who were illiterate, or nearly so, on commitment, many of whom have made considerable progress in acquiring a knowledge of reading, writing, and simple arithmetic.

The library continues to be much appreciated by the convicts, and the new books which are purchased annually are eagerly sought for as soon as they arrive.

I certify that, to the best of my knowledge and belief, the rules laid down for the government of the prison have been adhered to, except in such instances as have been brought to the notice of the General Prisons Board.

I have the honour to be, Sir,

Your most obedient servant,

GEO. SHEEHAN, Governor.

The Chairman,  
General Prisons Board.

#### PROTESTANT EPISCOPALIAN CHAPLAIN'S REPORT.

H. M. Prison, Mountjoy,  
April 27, 1893.

SIR,—In presenting my Annual Report I can speak favourably of the prisoners; and am glad to say that the school, hospital and library have worked most satisfactorily during the past twelve months.

The large and commodious apartment to which the library has been transferred has proved a considerable benefit, while the prisoners appear to derive full advantage from the varied assortment of books.

The school offers, obviously, golden opportunities for—as far as possible, the remedy of past neglect; and I have observed with pleasure that the prisoners have made good use of the advantages thus placed within their reach; and have under the efficient exertions of the two masters, acquired much useful secular information along with learning to read and write, and making some progress in other departments of education.

The hospital—a fine building—is, it seems to me, one of the most valuable agencies of the gaol where constant care and medical skill in the alleviation of suffering and the restoration of health have produced among the patients of the Infirmary, as I can testify, clearly salutary effects.

The demeanour of the convicts at church on Sundays and week days has been very good, and the number of Communicants, at Easter, much higher than heretofore. I have also to mention that the attendance of

the warders at Divine Service deserves notice, and desire to add an expression of thanks to the working staff and our excellent Governor, George S. Sheehan, Esq., for ready co-operation with me in the discharge of my duties.

I have the honour, Sir, to remain your humble servant,

JOHN H. MACMAHON, M.A., LL.D.,

Protestant Chaplain.

To the Hon. Charles F. Bourke, C.B.,

Chairman, General Prisons Board.

### ROMAN CATHOLIC CHAPLAINS' REPORT.

Mountjoy Prison, May, 1893.

*Roman  
Catholic  
Chaplain's  
Report.*

SIR,—In submitting our report for the year ended March 31st, 1893, we have much pleasure in calling attention to the very satisfactory condition of the prisoners under our charge.

Their respectful conduct whilst in the Chapel, their piety and reverence in approaching the Sacraments, and their attention to religious instruction, were all of a most edifying character.

Not less gratifying were their attention to, and progress in secular knowledge under their efficient teachers. Indeed we have often been surprised and delighted at the amount of useful information acquired by them during their imprisonment.

We beg to tender our acknowledgments to the Governor, and to all the officers of the Prison with whom we came in contact for the kindness and valuable aid which we received from them in the discharge of our duties.

We have the honour to be, Sir, your obedient servants,

M. WALSH, B.C.C.,

T. O'DONNELL, A.B.C.C.

The Chairman, General Prisons Board.

### PRESBYTERIAN CHAPLAIN'S REPORT.

Mountjoy Convict Prison,

April, 1893.

*Presby-  
terian  
Chaplain's  
Report.*

GENTLEMEN,—It gives me pleasure to report a decided improvement in the prisoners attending the Presbyterian services during the year ended March 31st. There has been no serious breach of prison discipline committed by any of them; they are more attentive, and seem more inclined to be taught than formerly. We have introduced singing into the services during the year. The men join in it very heartily, and seem to enjoy it.

Your obedient servant,

J. C. JOHNSTON,

Presbyterian Chaplain.

All the Prisoners attending the Presbyterian services can read and write, some of them have made quite exceptional progress since the commencement of their imprisonment.

# MEDICAL OFFICER'S REPORT.

Mountjoy Prison,  
5th May, 1893.

SIR,—I have the honour to submit the annual report on the sanitary state of this Prison, and the usual medical statistics for the year ended 31st March last.

During the year there were 51 Warders treated in hospital. Febricula, Tonsillitis, Bronchitis, Catarrh, and Rheumatism were the chief ailments. One Warder died, and four were discharged the service on Medical grounds.

There were 210 convicts admitted into hospital during the year, for the diseases specified in the Table—"Cases of Sickness, &c." Eleven convicts were removed to the Invalid Prison, five transferred to the Criminal Lunatic Asylum, two released from Prison on Medical grounds, and one died.

No epidemic occurred, and no particular disease prevailed to any extent during the year.

The health of the officers and prisoners was generally good, and the sanitary arrangements were most satisfactory.

I have the honour to be, Sir,

Your most obedient servant,

P. O'KEEFE, M.D., Medical Officer.

## SUPERINTENDENT'S REPORT.

H. M. Prison, Grangegorman,  
6th May, 1893.

SIR,—I have the honour to submit my annual report and statistical returns for the year ended 31st March, 1893.

The conduct of the subordinate officers has been good, and they have, on the whole, performed their duties satisfactorily.

The convicts, I am happy to report, have shown a marked improvement in their conduct during the past year; all appear desirous of complying with the rules, and of giving satisfaction in the performance of their work.

The convicts are principally employed in laundry work, knitting, sewing, also whitewashing and painting. Five have been constantly in the kitchen, cooking for convict and local prisoners.

The teacher has been zealous and painstaking in discharging her duties, and the convicts under her instruction have made satisfactory progress. The probation and third class receive cellular instruction, and the associated classes are taught in the schoolroom.

The religious instruction of the convicts has been carefully attended to by the chaplains, the Roman Catholic Chaplain being assisted by the Sisters of Charity.

I certify that the rules laid down for the government of the prison have been adhered to, except in such instances as have been brought to the notice of the General Prisons Board.

H. M. Prison, Grangegorman,  
Dublin, 5th May, 1893.

*Protestant  
Episco-

Chaplain's  
Report.*

SIR,—In presenting my annual report, I have to state that there were only three convicts under my charge on March 31st. One was discharged during the year. All are intelligent, and two of them show satisfactory progress in religious knowledge, and all appreciate the visits and instructions of the chaplain.

One convict only attends secular instruction in the school. The other two receive similar instruction in their cells, but all three evince satisfactory improvement, and one has made considerable progress.

I consider that the prison is efficiently conducted, but I submit that the matrons are too closely confined on Sundays. I have always found the officers attentive and obliging.

I remain, yours faithfully,

HENRY HOGAN, Chaplain.

To the Chairman of the  
General Prisons Board.

### ROMAN CATHOLIC CHAPLAIN'S REPORT.

Grangegorman Prison,  
May 6th, 1893.

*Roman  
Catholic  
Chaplain's  
Report.*

SIR,—The improvement in the conduct and demeanour of the prisoners noticed in my last report has been more than maintained during the year ended the 31st March.

I believe this improvement is mainly due to the fact that the insubordinate prisoners have been disciplined into obedience to rule, while those who showed themselves amenable to good advice have been encouraged in their efforts to reform, and helped to begin a new career when leaving the prison.

I have the honour to be, Sir,

Your obedient servant,

JAMES ANDERSON, R.C. Chaplain.

To the Chairman,  
The General Prisons Board.

**SUPPLEMENTARY REPORT.**

SIR,—I regret exceedingly that I omitted to state in my report that the School teachers performed their duties most satisfactorily. The prisoners themselves told me that their teachers were most kind and painstaking. I trust the Board will be able to coincide with my view of having a regular school, and no such thing as cellular instruction.

I have the honour to be, Sir,

Your obedient servant,

JAMES ANDERSON, R.C. Chaplain.
